<http://library.queensu.ca/summon>

The Graduate Study Room is located on the 3rd Floor of Stauffer Library. Stauffer Library also offers a limited number of study carrels for graduate students – ask at the Circulation Desk.

Research Tools: Library Catalogue (QCAT)

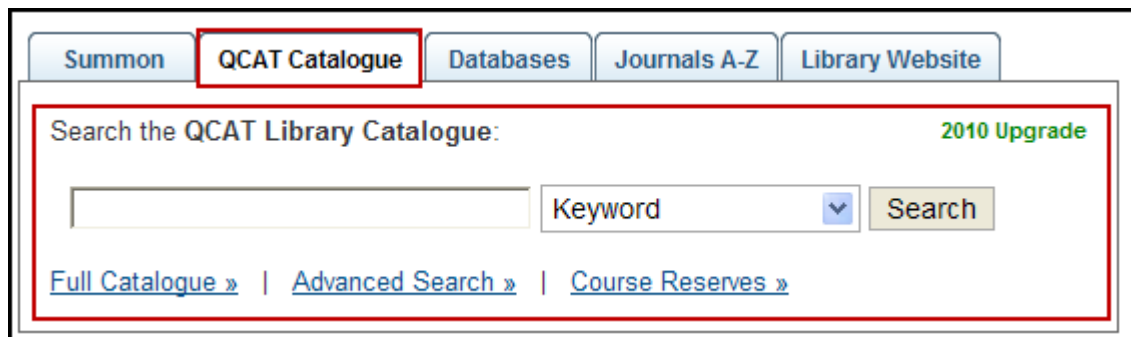

Figure 3: Screen capture of the QCAT Catalogue tab on the library homepage

Search the library catalogue (QCAT) to find materials (such as books, videos, journals, newspapers and government documents) available, in print and online, at Queen's University Library.

Tips for searching the library catalogue, QCAT, can be found in the Help section of QCAT. Various "how-to" guides and video tutorials are also available:

<http://library.queensu.ca/help/guides>

Videos (DVDs/VHS/Streaming Online)

In QCAT, perform a keyword or keyword Boolean search on your topic and limit results to Videos/DVDs/Streaming video. The multimedia collection in Stauffer is located on the main floor, behind the Reference Collection. Headsets are available for loan from the Circulation Desk.

Research Tools: Article Indexes and Databases

Search indexes and databases to find journal articles, citations to books, theses, conference proceedings and more. The library subscribes to over 650 article indexes and databases and over 80,000 electronic journals and newspapers.

Each academic discipline has its own specialized article indexes, which index the core literature of that discipline (and often relevant topics from related-disciplines). Library subject guides list core and related recommended databases for each discipline:

<http://library.queensu.ca/research/guide/womens-and-gender-studies/article-indexes>

The **Gender Studies Database** is the largest discipline-specific database in Gender Studies.

Accessing Indexes and Databases

You can access article indexes and databases from the Gender Studies Research Guide: <http://library.queensu.ca/research/guide/womens-and-gender-studies/article-indexes>, or, use the **Databases Tab** on the library homepage, where you can enter the name of the database you wish to search, or browse databases by subject:

Figure 5: Screen capture of the Databases tab on the library homepage

There are many indexes and databases relevant to the study of gender and women's studies. Some databases to note are:

Strategies for Effective Database Searching:

- Start your search with the obvious keywords or search terms. Also think of synonyms, alternate spellings, other terms or phrases to express the same concepts.
- Each database has different syntax requirements. Consult the “Help” or “Search Tips” section to get the most out of your searches.
- Most research databases have direct links to full-text if we subscribe to the journal. Use  to follow links to the text of an article or to QCAT (library catalogue). In QCAT use the “Journal Title Exact” option to check if Queen’s Library subscribes to the publication.
- Print, save or email your search results and articles.
- Import your citations to RefWorks to manage your research results.

Citation Indexes

Besides major databases in each subject field, the following advanced research tools are particularly useful for graduate students:

Arts and Humanities Citation Index: <http://library.queensu.ca/research/databases/record/2697>

Social Sciences Citation Index: <http://library.queensu.ca/research/databases/record/2927>

Journal Citation Reports (JCR): <http://library.queensu.ca/research/databases/record/2811>

Research Tools: Electronic Books

Most of the library’s electronic books are listed in QCAT and Summon, but you may also search the e-book packages directly: <http://library.queensu.ca/research/ebooks/>.

Research Tools: Queen's Library Journal Collections

The Library subscribes to hundreds of journals relevant to the field of gender studies. Individual journal titles are listed in QCAT. When you know the title of a journal you are looking for, perform a journal title search in QCAT to determine its location (either in print, on the [2nd floor of Stauffer library](#), or online).

Alternatively, search for the name of the journal from the **Journals A-Z** tab on the library homepage:

The image shows a navigation bar with five tabs: 'Summon', 'QCAT Catalogue', 'Databases', 'Journals A-Z', and 'Library Website'. The 'Journals A-Z' tab is highlighted with a red rectangular box. Below the navigation bar is a search form with the heading 'Find a specific journal, newspaper or magazine:'. The form includes a dropdown menu set to 'Title contains', an empty search input field, and a 'Search' button. Below the search field are two radio buttons: 'online and print' (which is selected) and 'online only'. At the bottom of the form are two links: 'More Journal Options »' and 'Search for Articles »'.

Figure 6: Screen capture of the Journals A-Z tab on the library homepage

Alerting Services

Alerting, current awareness or table of contents services are designed to assist researchers in keeping up-to-date with current literature in a discipline. A number of databases and collections of electronic journals provide automated alerting services based on your search profile or search strategy.
