Access the Business Research Guide at the library homepage: library.queensu.ca or by clicking Library – General under Queen’s Resources in the Commerce Portal

The Research by Subject – Business guide direct link is: http://library.queensu.ca/research/guide/business

The business research guide provides links to databases covering business and management, trade magazine and academic journal articles, market research reports, company news, financials, data and statistics, business news, investment bank and brokerage research ....
The **Summon** search box (the default on the library site) searches across almost all library resources – books, ebooks, articles, newspapers etc. and includes many different subjects. I’d recommend using the business databases listed in the **Business Research Guide**. Use Summon to quickly find electronic full text when you know an author and title.

**Sources for the Informational Report**

The topics – Youth Unemployment, Real Estate Market, Women in the Labour Market are current, Canadian economic issues. Because of the Canadian focus, ‘external evidence-based resources’ will include statistics, reports and information found on government, research institute and advocacy organization websites. Newspaper articles and online media will help in identifying useful sites and reputable sources of information. Academic/scholarly reports and articles from the article databases are also required.
Canadian databases:

**CBCA@Proquest (Canadian Business & Current Affairs)** alternate link
- general and academic articles, news wires

**Canadian Newsstand** alternate link
- full text of the major Canadian daily papers, includes *Globe and Mail’s Report on Business* and the *Financial Post*

**Canadian Electronic Library – Public Policy Collection**
- reports and ebooks from government agencies, research institutions, advocacy organizations

**Conference Board of Canada e-Library** (choose Topic from the left hand menu) alternate link
- economic Canadian and Provincial ‘Outlook’ reports, municipal stats, HR and leadership reports

---

**Youth Unemployment**
