Research Tools: Summon

Search across the library catalogue and many of our electronic resources, all from one search box. Summon contains everything found in the traditional QCAT Library Catalogue, plus millions of full-text articles available from the Library.

Research Tools: Library Catalogue (QCAT)

Search the library catalogue (QCAT) to find materials (such as books, videos, journals, newspapers and government documents) available, in print and online, at Queen’s.

- Search by Author: last name first name
- Search by Title: omit initial articles (the, a, an, le, la...)
- Search by Journal Title: eg Labor History
- Search by Keyword (“and” is automatically placed between words)
- Search by Keyword Boolean:
To narrow the scope of your search you can join together your search terms (keywords) using special sets of predefined words, known as “Boolean operators.” Boolean operators are used to indicate the relationship(s) between words/concepts. They are: **and** or **not** Phrases need to be in quotes “incentive pay”. In addition, there are special characters (such as “?” for truncating) that allow you to perform more sophisticated searches.

Tips for searching the library catalogue, QCAT, can be found in QCAT. Various “how-to” guides and video tutorials are also available: [http://library.queensu.ca/help/guides](http://library.queensu.ca/help/guides)

**Electronic Books**

Most of the library’s electronic books are listed in QCAT and Summon, but you may also search the e-book packages directly: [http://library.queensu.ca/research/ebooks/](http://library.queensu.ca/research/ebooks/)

Collections of note include:

**Canadian Electronic Library**

**Research Tools: Databases**

Search databases to find journal articles, newspaper articles, citations to book chapters, theses, conference proceedings and more. The library subscribes to over 650 article indexes and databases and over 80,000 electronic journals and newspapers.

Each academic discipline has its own specialized article indexes, which cover the core literature of that discipline and relevant material from related-disciplines. Library subject guides list core and related recommended databases for each discipline:

See [Research by Subject](http://library.queensu.ca/research/guide/industrial-relations/article-indexes)
Industrial Relations however, encompass material from a number of subject areas – business, law, economics, psychology . . .

**Key Databases:**

- **ABI/INFORM Global** international business and management academic journals and industry publications. Includes human resources, compensation and benefits, labor relations, management, organizational behaviour and more. Many of the articles are full-text. 1971 –

- **Business Source Complete** business journals, trade magazines, investment and research reports; includes HR and industrial relations.

- **CBCA** (Canadian Business & Current Affairs) includes both scholarly and popular Canadian journals and the business press.

- **Sustainalytics** environmental, social, and governance performance ratings of Canadian companies, includes employee relations.

- **Conference Board of Canada** economic trends, management and HR issues, public policy reports, also the annual *Industrial Relations Outlook*

- **Econlit** indexes economic books, journals, also economic history

- **EIU – Economist Intelligence Unit** comprehensive economic, political and business analysis on over 200 countries

- **Factiva** many full-text international newspapers and magazines via Dow Jones and Reuters and company news and profiles

- **Labour Spectrum** labour arbitration decisions, cases, commentary and legislation

- **Legal** databases include: Index to Canadian Legal Literature, Index to Legal Periodicals and Books, LegalTrac, LawSource (Westlaw)

- **PAIS International** indexes journals, books, government reports in public policy, economics, law, political science

- **PsycINFO** covers the international literature in psychology; includes organizational behaviour - available on both ProQuest and Ovid search platforms.

- **SSRN Social Science Research Network** – searchable journal abstracts and full-text working papers. Research network sections include economics, leadership, management, negotiations and social insurance.

- **Worldwide Political Science Abstracts** indexes journals in political science, international relations, law, public administration and policy, and labor relations
Multidisciplinary Databases:

**Academic Search Complete** [http://library.queensu.ca/research/databases/record/3404](http://library.queensu.ca/research/databases/record/3404)
A multidisciplinary index (with abstracts) to more than 10,900 publications including peer-reviewed journals, popular magazines, conference proceedings, monographs and reports.

**Google Scholar** [http://library.queensu.ca/research/databases/record/2998](http://library.queensu.ca/research/databases/record/2998)
Covers articles from a wide variety of academic publishers, professional societies, preprint repositories and universities, as well as scholarly articles published on the "open" web. By searching Google Scholar through the Queen’s web proxy (using the link provided above) the “Get It at Queen’s” citation linker is activated (which allows you to click through to the Library’s subscriptions).

**Alternative Press Index** [http://library.queensu.ca/research/databases/record/5129](http://library.queensu.ca/research/databases/record/5129)
Interdisciplinary index to alternative, radical and left periodicals, newspapers and magazines.

**Left Index** [http://library.queensu.ca/research/databases/record/2809](http://library.queensu.ca/research/databases/record/2809)
An index to the diverse literature of the left, with emphasis on political, economic, social and culturally engaged scholarship inside and outside academia.

Where are these databases?

You can access article indexes and databases from the [Research by Subject](http://library.queensu.ca/research) links or the [Databases](http://library.queensu.ca/research) tab on the library homepage. Enter the name of a database or browse by subject:

![Database Search](http://example.com/search.png)

**Newspapers**

Queen’s Library subscribes to local, regional, national and international news databases. These databases provide significant date coverage (unlike the free news sites on the web) and allow for a variety of search capabilities ideal for academic-level research. See the guide to major news indexes and full-text news resources [http://library.queensu.ca/research/guide/news-resources](http://library.queensu.ca/research/guide/news-resources)
Strategies for Effective Searching:

Start your search with the obvious keywords or search terms. Also think of synonyms, alternate spellings, other terms or phrases to express the same concepts.

Each database has different syntax requirements. Consult the “Help” or “Search Tips” section to get the most out of your searches.

Most research databases have direct links to full-text if we subscribe to the journal. Use Getit@Queens to follow links to the text of an article. Or, in QCAT use the “Journal Title Exact” search to check if Queen’s Library subscribes to the publication.

Print, save or email your search results and articles.
Import your citations to RefWorks to manage your research results.

Research Tools: Journals

Individual journal titles are listed in QCAT. When you know the title of a journal you are looking for, do a ‘journal title exact’ search in QCAT to determine its location (either in print - on the 2nd floor of Stauffer library, or online).

OR

Search for the name of the journal from the Journals A-Z tab on the library homepage:
Citing and Managing Your Sources

Citation and Style Guides: http://library.queensu.ca/help/cite-sources

RefWorks is an online citation manager available to all Queen’s students, staff and faculty. See http://library.queensu.ca/help/refworks for more information and to create your account.
